PROJECTS

Daily Leaf

Motivational Quotes iOS App

- Applied attention grabbing practices for app submission and publication on Apple's App Store to increase discoverability
- Implemented SwiftUI to create an intuitive user interface for increased user engagement
- Conducted tests through Xcode across multiple devices to ensure consistent quality

Johnnie Island

Personal Portfolio

- Designed a visually appealing portfolio to increase user engagement while showcasing a group of assorted projects
- Utilized HTML, CSS and Javascript to create an interactive website to enhance user experience through intuitive navigation
- Integrated a responsive design to ensure a seamless user experience on both mobile and desktop devices

All Things Manga

Online Marketplace

- Built all account management functionality, including creating, saving and editing accounts allowing users greater control and access to their data
- Incorporated authentication features to secure user logins and sensitive data

WeatherMe

Local Forecasts iOS App

- Employed a weather API to fetch and process forecasts to provide real time data
- Implemented the Core Location framework to access users' current location information

SKILLS

Languages: Swift, Java, HTML, CSS

Technologies: SwiftUI, Core Data, Core Location

Tools: Xcode, Git, Figma
